Vibhuhari
Trading & Services Pvt. Ltd

An ISO 9001 & 45001 Certified Company

Accreditation

We're thrilled to announce we've achieved dual ISO certification: ISO 9001:2015 (Quality) and ISO 45001:2018 (Safety)! This milestone means better quality, consistent service, and a proven commitment to the health and safety of our entire team. It's how we ensure we deliver our best, every day.

Certificate of Registration

This is to certify that

VIBHUHARI TRADING AND SERVICES PRIVATE LIMITED

REGISTRATION ADD- 903, PLOT NO -204, WHITE WOODS, SECTOR -23,
ULWE, NAVI MUMBAI - 400703, INDIA

OFFICE ADDRESS- 242, SATRA PLAZA, SECTOR -19D, PLOT NO - 20,
VASHI, NAVI MUMBAI - 400703, INDIA

has been independently assessed by QRO
and is compliant with the requirement of:

ISO 9001:2015

Quality Management System

For the following scope of activities:

**PROVIDING CONSTRUCTION SUPPORT, MANPOWER FOR PROJECT EXECUTION,
THIRD PARTY AGENCY, EXPEDITOR. AND PROJECT MANAGEMENT SERVICES,
AND EXECUTION OF INDUSTRIAL CONSTRUCTION WORKS.**

Date of Initial Registration: 13th October 2025
Date of this Certificate: 13th October 2025

Certificate Expiry: 12th October 2028
Recertification Due: 12th October 2028

Certificate Number: 305025101313Q

Chunant...
Head of Certification

Validity of this certificate is subject to annual surveillance audits to be done successfully on or before 365 days from date of the audit.
(In case surveillance audit is not allowed to be conducted: this certificate shall be suspended / withdrawn).

The Validity of this certificate can be verified at www.qrocert.org

This certificate of registration remains the property of QRO Certification LLP, and shall be returned immediately upon request.

Our Company

Vibhuhari Trading & Services Pvt. Ltd., a company established in 2021 with the goal of providing premium quality services and enhancing the recognition of the brands, products, and services we offer. Our objective is to deliver practical solutions that meet the needs of our customers and clients, ensuring a strong commitment to secured orders and projects. We are dedicated to timely delivery without compromising quality and safety.

We aim to provide exceptional services to the construction industry, including sourcing Design & Detail Engineering Services, manufacturing and exporting equipment, process skids, and modular units fabricated in India. We also offer construction support services and industrial supplies for various construction projects in sectors such as Oil & Gas, Refineries, Petrochemicals, Fertilizers, Cryogenic (ASU's), Power, Steel, and other infrastructure-related areas. With 29 years of extensive experience in the construction industry, our team comprises dedicated construction management professionals and experienced engineers and supervisors who possess the expertise to deliver optimal construction support services to our clients.

Our Objective

We aim to give the best services to Construction Industry in terms of providing Consultancy Services, Project Management Services & Human Resource, other construction support services. The support services shall include Bid review, Cost estimation, Contractor services, Project scheduling, etc. To support and execute, we have a team of construction management professionals that includes experienced project managers and engineers to cater for any scale of construction projects in Oil & Gas, Refineries, Petrochemicals, Cryogenic, Fertilizers, Power and other core sectors.

Our Vision

- Sustaining our reputation as reliable & customer-oriented.
- To provide our customers/clients competitive and premium quality services & strengthen the acceptability of brands and products we deal with.

Our Mission

- We will get ourselves greatly committed (Engage), be a role model (Inspire) & succeed to grow vigorously (Thrive).
- We will strive to implement a long term relationship with our customers/clients based on safety, quality, timely supply/ service and an anticipation of their needs.
- To help fulfill this mission, we treat all our team members, employees fairly and involve them in the quality improvement process to ensure responsiveness and cost effective work execution.

Health, Safety & Enviroments

Health

“Health is our most valuable asset. Vibhuhari Trading & Services Pvt. Ltd. considers it a core responsibility to protect the health of all employees. All health and safety rules and regulations are strictly followed, and working conditions are maintained to ensure that employees are protected from any risk to their health.”

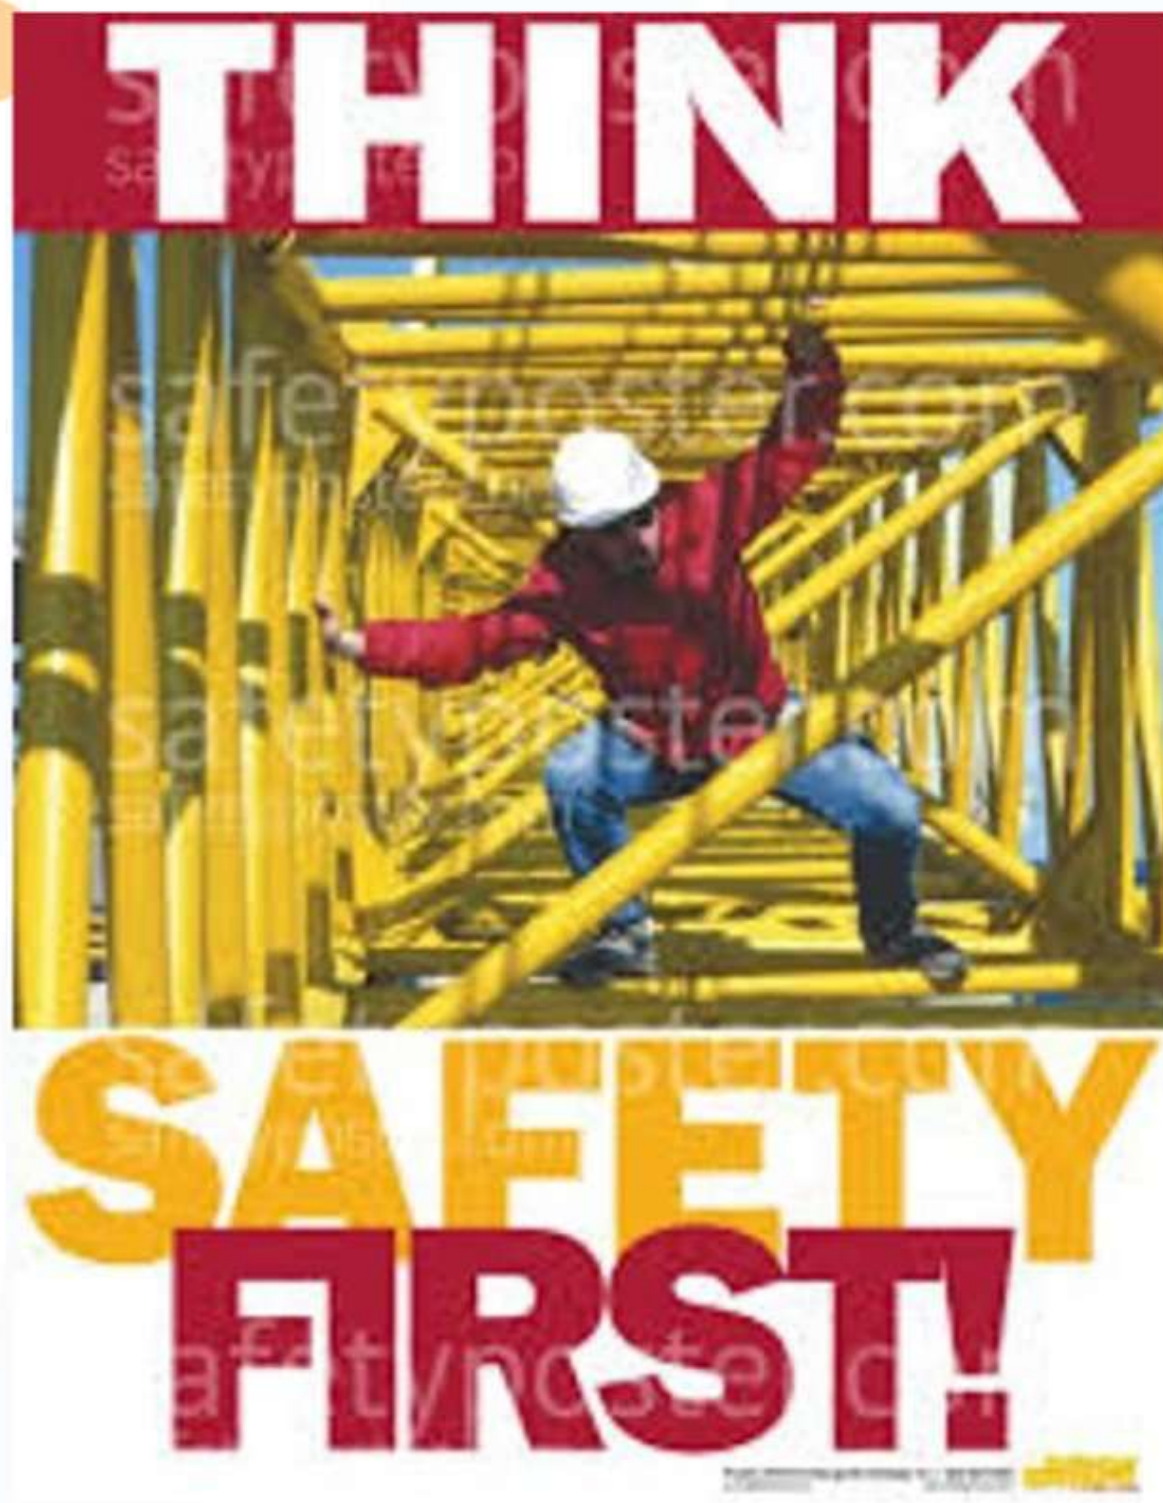

Safety

“‘Zero’ is possible. This is the firm conviction of Vibhuhari when it comes to avoiding all accidents. From the outset, all employees perform every activity safely and in accordance with the applicable rules and regulations. No compromises are tolerated. Even the most stringent safety standards are systematically observed. At the same time, specific requirements from customers are integrated.”

Environment

“At Vibhuhari Trading & Service Pvt. Ltd., we are actively committed to environmental sustainability. The Industrial Services Management System ensures that all statutory rules and regulations, as well as the company’s own requirements, are observed. Environment-conscious action and continuous improvements in material optimization, waste avoidance, and energy management help ensure a clean and safe environment.”

Environment-conscious action and continuous improvements in material optimization, waste avoidance, and energy management help ensure a clean and safe environment.”

Construction of Heaters & Reformers in Petrochemical, Refinery and Fertilizer Plants

We have experience in the execution of various types of heaters and reformers. These projects were engineered by companies such as Technip, Heurtey Petrochem, Linde, Toyo, and Lummus. Notably, we have also worked on reformers from licensors KBR and Haldor Topsoe, collaborating with their engineering partners.

Our fabrication and field installation capabilities encompass both circular and rectangular radiant sections, convection modules, air preheater modules, stacks, ducts, ID/FD fans, catalyst tubes, burners, and piping in CS, AS, and SS.

Construction of Cold Box & Double Wall Cryogenic Tanks

Have extensive experience in the construction of cold boxes for air separation unit (ASU) projects, which are critical components of ASU.

Have successfully managed the construction of cold boxes using both the stick-built method and the complete fabrication and assembly of the cold box in a horizontal position. The latter approach involves then making the cold box vertical during its erection and installation on the foundations. This method significantly reduces man-hours, increases productivity, and minimizes the need for scaffolding and work at various heights.

We use a jacking method to manufacture double-wall cryogenic tanks of various sizes. The outer shell of these tanks is made of carbon steel, while the inner shell is made of stainless steel.

Construction of Modular Units & Process Skids for Oil & Gas, Refineries, Petrochemicals and Process Plants

We have a team of people who have proven experience in modular construction, delivering fully engineered and shop-fabricated modular units and process skids for industrial projects. This experience covers detailed interface engineering, and off-site assembly of structural, piping, mechanical and E&I systems to a high degree of mechanical completion. By maximizing work in a controlled yard and minimizing site hook-ups, it can reduce site risk, improve productivity and quality, and enhance safety.

Projects Completed & Under Execution

- Piping Erection, Field Welding, Pipe supports Installation, Mechanical clearance, Hydro testing of Piping system at New Vacuum Distillation Unit (VDU) in IOCL – Gujarat Refinery for M/s Toyo Engineering India Pvt. Ltd. *By Providing Skilled Manpower and Supervisors & peak manpower mobilized is 85 nos.; Duration – Oct'24 to Mar'26*
- Piping field welding, Pipe supports Installation Mechanical Clearance, Hydro testing of Piping system, Box-up and Painting at Diesel Hydrotreater Unit (DHDT) in Numaligarh Refinery, Assam for M/s Toyo Engineering India Pvt. Ltd. *By Providing Skilled Manpower and Supervisors & jobs are currently under execution and manpower mobilized during peak time is 90 nos.; Duration – Apr'25 to Ongoing*
- Piping Erection, Field welding, Pipe supports Installation, Mechanical clearance, Testing and Box-up, Painting works in VGO-HDT unit of IOCL-Panipat Refinery for M/s Toyo Engineering India Pvt. Ltd. *By Providing Skilled Manpower and Supervisors & jobs are currently under execution and manpower mobilized is 50 nos.; Duration – Mar'26 to ongoing*
- Steam Tracing works in VGO Unit in IOCL – Panipat Refinery for M/s Toyo Engineering India Pvt. Ltd. *Total Quantity including Bending, Laying, Supports Installation and Testing is 18000 Meters.*

Projects Completed & Under Execution

- Utility and Process Piping Fabrication and Erection works in Napthta Cracker Furnace in Reliance-NMD Project for M/s JNK India Ltd. *Total approx. quantity is 28000" dia & 55000" mtr of CS, SS & AS Piping.*

- Piping & Structural Steel works for M/s JNK India Ltd., by providing Skilled Manpower and Supervisors for their Petronas Project (Export Job) at Adani-SEZ facilities, Mundra, Gujarat.
- Inspection and Expedition of Process Skids, Dye Injection Unit, Valves, Power Cables, etc. for M/s ISCCO, Abu Dhabi from the Manufacturers in India with whom orders are placed by ISCCO.
- Third Party Agency contract with M/s Toyo Engineering India Pvt. Ltd. to provide Staffing of various disciplines for their PMC and EPC projects in Nayara Refinery-Gujarat, Panipat Refinery-Haryana, Barauni Refinery, Bihar, Paradip Refinery, Odisha. *We deployed 25nos. Staff on our payroll, and all are experienced and senior level professionals since last more than 1 year now and it is ongoing contract*

Having successfully met the urgent manpower needs of major Middle East clients like ISCCO (Abu Dhabi) and ANC Arabia (Jubail, KSA), we possess the proven capability and robust talent pipeline to deploy qualified Engineers, Supervisors, and skilled manpower for the projects on the shortest notice.

Our current strength of Manpower is 200+ to execute Piping and Mechanical works and 25+ Staffs from Managerial to Supervisors & we have capability to source and mobilize 500 manpower and execute multiple projects at a time.

Engineering & ERP Services Vertical

"Vibhuhari is proud to announce the launch of our **Engineering & ERP Services Vertical**—a dedicated business unit established to provide high-level technical consultancy and digital infrastructure for the EPC and PMC sectors."

A Dedicated Professional Ecosystem

"Unlike traditional manpower supply, this vertical operates as a **technical powerhouse**. We have assembled a core team of **competent, industry-certified professionals**—including Lead Engineers, System Architects, and ERP Consultants—who take full ownership of project delivery from design to digital integration."

Core Specialisations of this Vertical:

Design & Detailing: Providing multi-discipline engineering support (Civil, Structural, Process, Piping, Electrical, Instrumentation) for front-end and detailed design phases and detailed technical audits led by seasoned subject-matter experts.

ERP & Digital Transformation: Specialised implementation and management of industrial ERP systems (SAP, Oracle, Microsoft Dynamics) to automate project controls and resource tracking.

How this Vertical Adds Value?

Autonomous Expertise: This vertical functions as a consultant-partner, providing the intellectual capital required for complex project phases.

Proven Leadership: Every project under this vertical is managed by professionals with a track record of delivering medium to large-scale industrial projects across **India and the GCC**.

Strategic Synergy: While this is a separate vertical, it leverages Vibhuhari's vast network to scale technical teams rapidly whenever a project demands.

Industrial Supplies

We specialize in sourcing and supplying high-specification industrial items for petrochemical and process plants, ensuring seamless operations for our partners in the Middle East and across the globe.

This includes -

- API-certified components, Critical flow control solutions, Precision instrumentation, High-pressure piping and fittings, etc.

- **Refractory Anchors**

We provide a comprehensive range of high-performance refractory anchors in various grades and configurations, specifically designed to withstand the extreme temperatures and corrosive environments of petrochemical furnaces, heaters, and refinery units.

Our Expertise Includes:

- **All Material Grades:** Available in Stainless Steel (304, 310, 316, 321, 330), Inconel, and other high-nickel alloys.
- **Diverse Types:** V-Anchors, Y-Anchors, Crook-style, Wave-type, and Threaded Studs.
- **Specialized Applications:** Support systems for castable linings, ceramic fibre blankets, and refractory bricks.

We specialize in the supply of high-durability machinery essential for refractory, civil, and industrial construction projects:

- **Refractory & Mixing Solutions:** High-capacity **Castable Mixer Machines** and specialized **Mortar Mixer Machines** designed for consistent material blending.
- **Precision Cutting:** Industrial-grade **Brick Cutting Machines** for high-accuracy refractory and masonry work.
- **Application Machinery:** Advanced **Gunning Machines** for efficient refractory lining and concrete spraying.
- **Vibration Technology:** A comprehensive range of **Electrical & Pneumatic Vibrators** to ensure material density and structural integrity in specialized pours.

Services we can offer directly and along with our associates

Design & Detail Engineering – This includes Process Equipment's, Civil & Structural, Piping, Refractory works.

Manufacturing of Process Equipment's, Process Skids, Modular Units, Piping Spools, Chemical Reactors, Heat Exchangers, Blending Vessels and Storage Tanks.

Pumping Solutions – Installation, Alignment and Commissioning support which includes complete Pumping & Dewatering systems required by core industries.

Construction Support – Civil, Electrical & Instrumentation works.

Construction Support – Mechanical works – Structural, Piping Fabrication & Erection works, Equipment Installation & Alignment – Rotary and Static & Turnaround, Shutdown works

Construction Support – Insulation & Refractory works, Painting works with Material Supplies.

Specialized Services like Industrial Chemical Cleaning, Ultra High Pressure Jetting, Decontamination, Water Treatment & Descaling.

Catalyst Loading & Unloading, Pigging & Hydro testing.

Technical Consultancy, Project Management and Human Resource to Middle East and other overseas countries.

Sourcing of Industrial Products including Steel, Piping components, Conveyor systems, Anchor Bolts/Fasteners, Machineries, etc. for overseas clients.

Our Clients & Associates

We are open to provide services across India as well as the Middle East & other overseas countries.

(Our Middle East Partner)
